*Abstract*—Insert abstract here.

## I. INTRODUCTION

This project is focused on applying matching theory to a virtual machine assignment problem. We will say other things when it gets to time, but I am just trying to fill the space to keep this section happy.

## II. RELATED WORK

Describe related work.

## III. METHOD DESCRIPTION

Describe what was done.

## IV. RESULTS AND DISCUSSION

Show results and discuss what they represent.

## V. CONCLUSION

The conclusion goes here.

## VI. FUTURE WORK

List possible future work here.

## VII. INDIVIDUAL CONTRIBUTIONS

Enumerated individual contributions.

## ACKNOWLEDGMENT

The authors would like to thank...
